

Social cohesion, Participation, and Inclusion  
through Cultural Engagement

SPICE: "Social cohesion, Participation, and Inclusion through Cultural Engagement" is an EU project aiming to foster diverse participation in the heritage domain through a process of "citizen curation".

Citizens will be supported to: develop their own personal interpretations of cultural objects; work together to present their collective view of life through culture and heritage; and gain an appreciation of alternative cultural viewpoints.

This project has received funding from the European Union's Horizon 2020 research and innovation programme (Grant Agreement N. 870811)

*cultural heritage is a group of resources inherited from the past which people identify, independently of ownership, as a reflection and expression of their constantly evolving values, beliefs, knowledge and traditions. It includes all aspects of the environment resulting from the interaction between people and places through time*
